Lean Process Improvement Workshops, Lean Deployment & Training Workshops
Consult our Lean training and Certificate flyer for details on 1-day training services

While studying for my MSc in Organisational Development, I discovered Lean and realised that *Lean is what Government needs to increase morale, increase innovation, increase efficiency and increase capacity*. Lean helps engage staff and management to focus on common goals: deliver only VALUE to clients using collaborative science, a rigorous, proven and empirical approach!

France Bergeron (BTh, MSc)

Lean. Harness science to improve work, every day.

Why Lean Thinking? Stop starting, start finishing and DELIVER!

- Lean thinking increases **CAPACITY**, **ENGAGEMENT and ALIGNMENT** to deliver
- Lean thinking helps you **SEE** the *flow* of work
- Lean thinking helps you strive to *flow* only **VALUE** to clients (and taxpayers) every day
- Lean thinking reduces complexity and helps you **MANAGE** and **OPTIMISE** the *flow* of work
- Lean thinking helps you learn to **SEE** problems, and to rigorously **SOLVE PROBLEMS** every day
- Lean thinking means colleagues and clients **COLLABORATE** & **INNOVATE** to solve problems
- Lean thinking, as *empirical* collaborative science, is your **ONLY** change management approach

Where to start? Develop people.

- Common goals and language. Staff and management learn and practice Lean thinking to see work, measure work and improve work every day.
- Leadership. Top management commits to continuous improvement and respect for people.

What are lessons learned worldwide? Integrate Lean in daily work!

- So-called 'belt' systems (white to black) maintain command-and-control and are not compatible with Lean as collaborative science. In a Lean organisation, everyone is considered as an equal.
- Costly armies of so-called 'belt experts' in distinct continuous improvement or Lean units can become an end in themselves and do not contribute to flowing only value to citizens.
- Management cannot delegate improvement. Lean leadership is key to sustainability.
- Mapping workshops are only a small component of Lean. Think Lean, solve problems daily!

Our services & low prices – value for you & taxpayers!

Lean Process Improvement (Mapping) and Planning Workshops

2-day Lean process improvement workshop for very small, less complex processes
Cost: $5,722.50 (+HST) contact 613.680.2953 or info@alpenpathsolutions.com

2.5-day Lean process improvement workshop for small, less complex processes
Cost: $7357.50 (+HST) contact 613.680.2953 or info@alpenpathsolutions.com

3.5 day Lean process improvement workshop for larger, cross-functional, complex processes
Cost: $ 8,829.00 (+HST) contact 613.680.2953 or info@alpenpathsolutions.com

2-day Lean strategic workshop for management
We guide management teams to develop a strategic understanding of what the organisation offers (value streams), identify and prioritise areas for continuous improvement and visualise work.
Cost: $5,722.50 (+HST) contact 613.680.2953 or info@alpenpathsolutions.com

Lean Deployment – embed Lean in your unit / organisation

Embed collaborative science throughout your unit/organisation to deliver only **VALUE** to clients.
Cost varies and includes management training, strategic planning and staff training. Excludes **waste** on so-called 'belts'.
